

te peaceably to assemble and invention and mastery of such

By Kevin A. Sensenig
Draft 1.02
2022 April 8

tccc

In a tccc dimension-esprit-Freedom-1776 Nation!, we have te various inventions and doSomethings and the right peaceably to assemble and its various categories and domains of inter- and multi-faceted meanings and experiential and fact-verbs. Te corporation, individual, facet, and ethic.

in a dimensiono-esprit-Communist state, and there might be various types of these, various expressions, the individual who invents such as C or SPARC or like is taken care of, and any like who take up its mastery. Throughout the centuries and millenia. Or various types, or if- and maybe but possibly in a certain manner, theoretical-applied, meticulous, free, or dimension, or if so. Source material, original thought, analytic-feeling-experiential-compassion-flexi-structureace, theory and praxis, the anticipated and the actual; events, arcs, and a projection of domain and of-.

Note

historical. Something to verify.

A digital computer -- to manufacture one -- any digital electronic combination that works with and produces logic, is a digital computer, and such was denied right to market via AT&T, told so by the US national government.

telling us where to put things of natural and logical and ethical and productive type and category.
